

EDUCATION

2004	Master of Architecture / Ecological Design	San Francisco Institute of Architecture
1999	Bachelor of Science, Industrial Design	Georgia Institute of Technology
1998	Bachelor of Architecture	Georgia Institute of Technology

WORK EXPERIENCE

- :: **Blu Homes** - bluhomes.com – Senior Architect in a technology startup striving to act as a disruptive force in the building industry in what’s been called “The Apple of homes”. Blu Homes creates factory built high end residences using a patented folding steel frame and crane delivery system. Fast paced and highly collaborative environment mentoring junior designers, sales team, product development and engineering. Directly responsible for design of over 40 projects in six months.
- :: **Waldorf Design**- waldorfdesign.com – Freelance Project Manager working on design projects both independently and contractually for various Architectural firms in Marin. The diverse mix of projects during this time period included renovation and new construction single family residential, commercial tenant improvement, a multi-family speculative development, and high end wineries.
- :: **EDG Interior Architecture** - edgdesign.com – Project/Job Captain at an Interior Design firm with a focus on industry leading Hospitality and Restaurant design. Responsible for complete construction set detailing and development on a wide range of national and international commissions, including JW Marriott Hong Kong, Fairmont Singapore, and Marriott Panama City.
- :: **Ferrari Moe, LLP** – ferrarimoe.com – Project Manager and Design Lead in an A/E firm dedicated to forensic architecture, historic restoration, building science and litigation support. Extensive experience investigating the root causes of building failures on all construction types, and designing waterproofing solutions for the building envelope.
- :: **UC Berkeley Extension** – unex.berkeley.edu – Instructor in a Post-Graduate Certificate curriculum in the Sustainable Design Professional Sequence. Courses taught include “Principles of Sustainability” and “Practical Applications of Sustainable Design”, both core classes in a program which strives to teach the full range of green design and construction methods, materials, systems and philosophies. Development of both in-class and on-line teaching curricula.
- :: **OrganicARCHITECT** – organicarchitect.com – Senior Design Associate for numerous sustainable residential projects within the Bay Area. Responsible for the complete management of a small architecture office including directing junior designers, consultant interface, design development, code analysis, scheduling, construction detailing, and client management.
- :: **Geoffrey Holton & Associates** – ghadesign.net – Designer and Project Manager for a small firm focused primarily on sustainable residential projects within the Bay Area. Responsible for all aspects of the design process, including design development, specifications research, construction and assembly detailing, and client management. Additional duties include website/ IT management, marketing and branding.

AFFILIATIONS AND RECOGNITION

- Faculty – UC Berkeley Extension – San Francisco
- Faculty – San Francisco Institute of Architecture
- Faculty – Academy of Art San Francisco
- Lecturer - Google / Greenbelt Alliance
- Panelist / Abstract Reviewer – West Coast Green
- LEED AP BD&C
- Certified Green Builder – NARI / Build It Green
- Firm named one of “Seven Eco-Warriors who are Changing the World” 2008 - 7x7 Magazine
- Finalist – RIBA-USA “Building a Sustainable World” International Design Ideas Competition 2007
- “10 to Watch” 2007 – California Home and Design

TECHNICAL ABILITIES

Windows and Mac OS, 3D Modeling in Vectorworks, Sketchup, Revit, AutoCAD, Maya, 3DS Max, Photoshop, Illustrator, InDesign, Bluebeam, HTML, CSS, Flash, and much more.

WORK EXAMPLES

See **waldorfdesign.com** for examples of building and environmental design, web design, animation, identity and graphic art.
